Introduction of Speaker
Beth Cunningham
Provost and Dean of the Faculty

Address
Barbara Ehrenreich
“Nickel and Dimed in America: A Minimum Wage Existence”

Alma Wesleyana
(please stand and join in singing
led by Mr. Cochran)
Professor Ferguson

From hearts aﬂame, our love we pledge to thee,
Where’er we wander, over land or sea;
Through time unending, loyal we will be—
True to our Alma Mater, Wesleyan.
When college days are fully past and gone,
While life endures, from twilight gleam til dawn,
Grandly thy soul shall with us linger on—
Star-crowned, our Alma Mater, Wesleyan.
—Professor W. E. Schultz (1935)

Alma Wesleyana

NATIONAL HYMN
George William Warren
(1828-1902)

Benediction (remain standing)
Chaplain Groh

Postlude (remain standing)
Präludium
Professor Ferguson
František Xaver Brixí
(1732-1771)
Barabra Ehrenreich

A scientist by education and a social activist by nature, award-winning author Barbara Ehrenreich is best known for her exposés on work and wages in the United States, including New York Times best-seller Nickel and Dimed: On (Not) Getting By in America.

Hailed as “a hair-raising and darkly funny odyssey through the underside of the working world,” Nickel and Dimed chronicles Dr. Ehrenreich’s foray into trailer parks and cockroach-infested motels as she attempts—and fails—to make ends meet working at a minimum wage job. The book has also been adapted for performance on the stage.

Nickel and Dimed falls between Dr. Ehrenreich’s 1989 book Fear of Falling: The Inner Life of the Middle Class, which was nominated for the National Book Critic’s Award, and her most recent publication, Bait and Switch: The (Futile) Pursuit of the American Dream, which delves into her attempt to secure a white-collar job.

Also an award-winning journalist, Dr. Ehrenreich shared the National Magazine Award for Excellence in Reporting in 1980 and her essay “Welcome to Cancerland,” published in Harper’s in 2000, was a finalist for the National Magazine Award. In addition to Harper’s, Ehrenreich has written for the New York Times, The Washington Post Magazine and TIME Magazine. She is currently a regular columnist for The Progressive, a monthly magazine promoting peace and social justice.

After earning her Bachelor of Arts in physics from Reed College and her Ph.D. in cell biology from Rockefeller University, Dr. Ehrenreich began to write about politics, war, feminism, and the stratification of wealth in America. In 1998 and 2000 she taught essay writing at the Graduate School of Journalism at the University of California-Berkley. Dr. Ehrenreich has received honorary degrees from Reed College, New York State University, the College of Wooster in Ohio, John Jay College, University of Massachusetts-Lowell and La Trobe University in Melbourne, Australia.
From a 1931 booklet of pen sketches:

“THIS BUILDING WAS MADE POSSIBLE LARGELY BY A GIFT OF ANDREW CARNEGIE IN 1910 AND HAS CONSTANTLY BEEN KEPT MODERN IN EVERY RESPECT DURING THE PAST TWENTY YEARS. CHEMISTRY, BIOLOGY, ZOOLOGY, AND PHYSICS DEPARTMENTS ARE QUARTERED IN THIS ATTRACTIVE BUILDING.”

The Edgar M. Stevenson Hall of Nursing, formerly known as Science Hall, was dedicated on October 9, 1965.
