BOYS FROM SYRACUSE

Prop Elevation of DUKE of EPHESUS Banner
1' = 1'-0"  10/21/2016
Curtis C. Trout, Scene Designer

Please make banner from muslin and paint to match this elevation. Create loops on the outside corners to hook loop over the balcony railing knobs on Building D. Paint on the paint frame in the Jerome Mirza Theatre. Basecoat at least twice before starting final paint color layers so the piece is opaque when complete. When finished cut the shape out of the muslin and sew 4" or 6" gold bullion fringe around the outside and bottom edges.
