- Teaching STEM/Coding to kids 4 – 18.
- Evaluate students' performance.
- Create fun coding games with students.
- Draft new lesson plans; revising the old.
- Digital Marketing
- Ad-hoc support

Jarlai Morris

Being Black in Hong Kong

- Difficulties adjusting to a culture filled with people who had very limited interactions with people of color.
- Having a safe space to return was sacred for myself and Shaela.
- There's a difference between curiosity and racism. No one should have to deal with racism because it's part of a culture.
- A mandatory training should be given to students of color to better prepare them for what they may face in Asian countries.
