**America The Beautiful**
O beautiful for spacious skies,
For amber waves of grain,
For purple mountain majesties
Above the fruited plain!
America! America!
God shed his grace on thee,
And crown thy good with brotherhood
From sea to shining sea.

*Alma Wesleyana

From hearts aflame, our love we pledge to thee,
Where’er we wander, over land or sea;
Through time unending loyal we will be—
True to our Alma Mater, Wesleyan.

When college days are fully past and gone,
While life endures, from twilight dream till dawn,
Grandly thy soul shall with us linger on—
Star-crowned, our Alma Mater, Wesleyan!

"What’s the definition of patriotism? It’s getting off our knees and fighting for justice!" With those words, Ralph Nader initiated his 1996 campaign for President of the United States as candidate for Green Parties of North America. If the definition holds, Nader is certainly the consummate patriot.

Since 1965, when he published his expose of the auto industry, Unsafe at Any Speed, he has fought to reveal and remedy corporate negligence, as well as government indifference. Nader’s book became a best-seller and led not only to automobile safety regulations, including requirement of safety belts, but also the passage of the 1966 National Traffic and Motor Vehicle Safety Act.

He was instrumental in creating the Occupational Safety and Health Administration (OSHA), the Environmental Protection Agency (EPA), and the Consumer Product Safety Commission. He helped draft and pass the Safe Drinking Water Act, the Meat and Poultry Inspection Regulations, and the Freedom of Information Act.

His advocacy is wide-reaching, involving everything from pipeline safety, baby food, insecticides and mercury poisoning to pension reform, land use and banking. He has helped to create numerous citizen groups, including the Center for Auto Safety, Public Citizen, Pension Rights Center, the Coalition for Universities in the Public Interest, and the student Public Interest Research Groups (PIRGs) that operate in over twenty states.

His best-selling books include Winning the Insurance Game, Why Women Pay More, and Getting the Best from your Doctor. His most recent consumer education books are Children First: A Parents Guide to Fighting Corporate Predators and No Contest: Corporate Lawyers and the Perversion of Justice in America.

Nader recently took up the cause against the Microsoft Corporation and what he considers its "anti-competitive conduct," leading to what he calls "a crusade to stop its drive for cyberspace hegemony." On his Consumer Project of Technology Website, Nader urges hardware vendors to offer alternative operating systems with their products, and last November he held a conference titled "Appraising Microsoft’s Global Strategy," which spoke about the company’s business practices and their impact on the high-tech industry.

Believing Republicans and Democrats are so ideologically close together—calling them "tweedle-dee and tweedle-dum"—Nader was urged by labor, environmentalists, social activists, and particularly the Green Party to enter the 1992 and 1996 presidential races. His goal was to build the foundation of a third political party rallying around "issues rather than colorful figureheads," with the focus on "Ten Key Values": nonviolence, social justice, ecological wisdom, grass-roots democracy, feminism, respect for diversity, decentralization, community-based economics, personal and global responsibility, and sustainability/future-focus.

Nader, the son of Lebanese immigrants, graduated from Princeton University in 1955 and received a law degree from Harvard University in 1958. Soon thereafter he became interested in unsafe vehicle designs that led to high rates of automobile accidents and fatalities.

In 1964, Nader became a consultant to the U.S. Department of Labor, and after publishing work criticizing the American auto industry, in particular General Motors’ production of the Corvair, he has led a life of continued consumer advocacy.
Academic Colors and Regalia

Like judicial robes, the garments worn on academic occasions such as today's Commencement derive from the ecclesiastical garb of medieval England. The scholar in the Middles Ages, it must be remembered, was a clerk, and therefore required to wear the clerical gown and tonsure. Certainly, at Oxford and Cambridge, at least in the earliest times, the robes were monastic in origin, although the hood was adapted from a lay garment common to both sexes and all classes.

As early as the fourteenth Century, scholars of certain colleges were required by statute to wear "a decent habit" befitting a clerk and no evidence appears that there was much differentiation among undergraduates, bachelor's, master's and doctoral robes. All were black, commonly of lamb's wool; most were fur-lined for warmth, or at least fur trimmed; and the only mark of difference was in the fuller cut and ankle length of the master's gown. The cope, or closed cape, was also black and followed the style of the everyday mantle of the clergy.

Hoods were worn by all and probably had no academical significance at the beginning. By 1330-40 doctors began to adopt scarlet for their hoods, and by 1500, for their robes, with black retained by the masters of arts and bachelors of divinity. An act of Henry VIII in 1533 ratified the wearing of robes of other colors. Hoods were lined with silk and miniver fur, a custom surviving until the late seventeenth Century, but over the years distinctions were created to identify the various ranks and faculties.

Caps evolved in similar manner. The round velvet cap is still worn today in the full dress of doctors (except doctors in theology); the familiar square, or mortarboard, was copied in the early sixteenth Century from the thirteenth Century cap of the University of Paris. A third style also derives from Paris: a squared cap made by sewing four pieces of cloth with seams producing ridged edges, seen in modern times in the biretta of the clergy and the squared velvet cap of doctors of theology. The "who" and "how" of the wearing of caps produced numerous rulings, restrictions and change.

The Reformation repressed the brilliant silks, gold lace, costly furs and extravagant cut of academic robes, and the sober and more uniform styles are, for the most part, what we see today.

However, the growth of higher education in the United States during the nineteenth Century, when the great land grant colleges and universities were established under the Morrill Act, created a confusion of conflicting styles and colors, The easy identification of one's academic status by means of cut, fabric and color was no longer true.

In 1893 an intercollegiate commission presented a uniform code for caps, gowns and hoods to be worn in the United States. The mortarboard caps are the same for doctoral, master's and baccalaureate degrees, except that doctors' caps may be of velvet and may have a gold tassel. The bachelor's gown is marked by pointed sleeves, reaching to the knee, while the master's sleeve is squared at the ends, and longer. The doctoral robe is fullest, with rounded bell shaped sleeves marked by three velvet stripes.

The greatest symbolism of the academic costume is borne by the hood, which identifies the level of the degree, the faculty (or department of learning) in which it was earned, and the institution which awarded it. The size of the hood, its shape and the width of its velvet trim identify the level of the degree, with doctoral hoods naturally being the fullest, widest and longest. Faculty colors tell us the department. Today's graduates will be wearing white for the College of Liberal Arts, pink for the School of Music, golden yellow for the sciences and brown for the fine arts. Faculty
members in the processional may be wearing light blue for education, copper for economics, drab for business and accountancy, orange for engineering, purple for law, lemon for library science, green for medicine, apricot for nursing, dark blue for philosophy, sage green for physical sciences, cream for social sciences and scarlet for theology, among the many available. The colors are mandatory on hoods, but may also be used on the tassels and/or the velvet on doctoral gowns.

The university or college is usually identified by the color of the hood lining. Two colors are frequently used, since there are approximately 2,000 degree-granting institutions in the United States. A few, such as Harvard, Yale, Princeton and the University of Chicago, use a single color. Illinois Wesleyan's green and white was adopted in 1888.

The Illinois Wesleyan University Mace, first carried at the 1969 inauguration of Dr. Robert S. Eckley as fifteenth president of the University, is also a striking symbol of the institution. Made of bronze for power and endurance and of walnut for organic strength, its cupola represents the bell tower of Old North Hall, Illinois Wesleyan's first building, which was erected in 1856 and demolished in 1967 to make way for Sheean Library. The bell suggests the Hedding Bell, a campus landmark since 1931, when it was installed on the IWU campus after pealing for generations at Hedding College, now defunct. The staff of the Mace is made from the walnut of Old North Hall, and the names of Illinois Wesleyan's presidents are engraved on its bronze base.

Prior and during the Commencement ceremony, the Illinois Wesleyan Alumni Association will sponsor a hospitality tent serving complimentary beverages. The tent is located on the east side of the Quadrangle in front of Holmes Hall. A first-aid station is located in the tent. In the Shirk Center, these services will be available in the lobby.

On the Quadrangle, restrooms are located on the first floor of following buildings: Shaw Hall, Memorial Student Center and Holmes Hall. In the Shirk Center, the restrooms are located to the north of the main lobby.

Following the ceremony, you are invited to a short reception in the tents on the south and west sides of the Quadrangle. If the ceremony is in the Shirk Center, the reception will be in the Activity Center.
