Poster Presentation P8

**SYNTHESIS OF A BICYCLIC AZIRIDINE COMPOUND AND
SUBSEQUENT RING OPENING REACTIONS**

Scott M. Brombosz and Jeffrey Frick*
Department of Chemistry, Illinois Wesleyan University

The bicyclic aziridine was synthesized from 2-butene-1,4-diol in several steps. We are currently studying the reaction of **1** with alcohols to form oxazolidinones (**2**). Synthesis of **1** and results of the ring opening reaction will be presented.
