This Event is brought to you for free and open access by The Ames Library, the Andrew W. Mellon Center for Curricular and Faculty Development, the Office of the Provost and the Office of the President. It has been accepted for inclusion in Digital Commons @ IWU by the faculty at Illinois Wesleyan University. For more information, please contact digitalcommons@iwu.edu.

**APPLICATIONS OF B-SPLINES AND B-WAVELETS IN COMPUTER AIDED
GEOMETRIC DESIGN**

Laura Chik and Dr. Tian-Xiao He*
Department of Mathematics, IWU

In this talk we will discuss some recurrence relation of B-splines, construction of B-splines interpolants with highest possible approximation order, corresponding wavelet analysis, and their applications in computer-aided geometric design.
